

UNA-CLAD™ UC-I4 Roofing System

Our continuous, interlocking metal roofing system is easy to install. And it can be used with other Firestone Building Products systems — all with single-source protection from our Red Shield Warranty program.

Features

- Easy, snap-together seam
- 1¾" seam height
- Clipped attachment
- Can be installed over Firestone's ISO 95+™ insulation
- Available with factory-injected, in-seam sealant
- Stiffening ribs available

Benefits

- Reduces installation time—requires no mechanical seaming and no separate battens
- Accommodates very long panels and nearly unlimited thermal movement
- Red Shield warranty protection of up to 20 years on your entire roof, from a single source

Firestone Quality

An interlocking metal system. A proven family of metal products.

The UNA-CLAD™ UC-14 panel provides a continuous, interlocking metal roof system that features a concealed-clip seam—and the established quality and protection of Firestone Building Products. Fabricated from our popular UNA-CLAD material, this panel system has a rigid seam that stands 1¾" tall.

Firestone Building Products' UC-14 metal roofing system can be installed quickly and easily, reducing labor time and cost.
